Common Violations Found During a Fire Inspection

1. Inspected fire extinguisher(s) and provide an annual service.
2. Maintain a 30" clearance in front of, and clear access to, all electrical panels.
3. Provide cover plates to all open electrical boxes and switches.
4. The use of extension cords and multi-plug adapters. (UL listed multiple-outlet strips with circuit breakers are acceptable).
5. Maintained fire doors in their automatic self-closing and latching condition. Remove all wedges and door stops.
6. Ensure secondary exits are clearly marked; ensure that illuminated exit signs are fully and always lit.
7. Remove obstructions and/or combustible materials from exit-ways, stairways, and fire escapes
8. Provide approved address identification for building including suite or unit numbers (letters), plainly visible and contrasting to background color.
9. Remove combustible materials stored in boiler/heater rooms.
10. Inspected fire alarm system annually and provide an inspection report.
