Tips to help with proper submission:

- Count all households (including apartments) and businesses on the block and multiply the total number by 90% (.90).
  The result will be the number of signatures needed on the petition.
- Fill in all address numbers in chronological order prior to asking for signatures. Then ask residents to find their number and fill in that line.

Upper Darby Township reserves the right to contact individuals that signed the petition to confirm their knowledge of the planned event.
